Attn. Susan Trautmann,

DOCKETED BY	CML
-------------	-----

Dear Susan,

E-01750A-03-0373

I am submitting this proposal in accordance to Arizona Administrative Code Title 14
Chapter 2 207-B-1 a, b, c, d, e, f, g, h, in order to try and resolve our differences.

a, Darlene Chantel
10001 E. Hwy. 66
Kingman, AZ 86401

Kingman, AZ 86401

- b, Service location: Sunny Highlands Estates, between Yucca Lane and Vista Street
Lots 65, 108, and 109.
- c, Overhead electric single phase line.
- d, Line extension will start at the existing back bone lying northerly of highway 66
and will proceed northerly on Grub Stake Way approximately 1616 feet to the
corner of Grub Stake Way and Vista Street. Service drops will be supplied in
accordance to the Cooperative's adopted policy. A detailed sketch has been
provided. The Cooperative reserves the right to change any pole location,
distances, starting locations ending locations, for reasons it has determined
unsafe, uneconomic, has a negative impact on the area, and/or other undetermined
circumstances that might effect the placement of said line extension.

- e, A cost estimate is to be provided by Mohave Electric staff.
- f, Payment will be determined by an economic feasibility analysis or cash advance of the service hook-up fees and any other line cost will be billed to the customers.
- g, The line extension charge does not exceed the total footage allowed and there is no cash advancement.
- h, The Cooperative will start said line extension as soon as scheduling will permit. Estimated completion is some time in April of 2004. (If Mohave has any difficulty in completing said line extension by the end of April, 2004 please contact applicant.)

I have enclosed a map with the proposed line extension with distances, pole placements and service drops. I have drawn in the line extensions and the service drops.

As you can see on the map the total back bone distance from your existing line to the corner of Vista Street and Grub Stake Way is approximately 1616 feet. Uni Source claims that they place their poles approximately 450 feet apart. In this proposed back bone line extension the poles will only be approximately 404 feet apart. Also, if you will notice, the map has a lateral line on Yucca Lane.

It is my understanding that a new house is proposed on Lot 110 and it may be safer and more aesthetically pleasing by bringing the drop for both 109 and 110 from that drop point.

There are a number of other possibilities that could be considered. We can talk with your engineer when we get to that point, so we can develop the safest and most economical line extension possible.

Because Sunny Highland Estates is an abandoned subdivision and in accordance to Arizona Administrative Codes Title 14 Chapter 2 201-34 and other pertinent evidences, these three lots are not considered a subdivision for installing electrical service.

Mohave Electric Cooperative's Service Rules and Regulations Subsection 106-C-1 states that we are entitled to 625 of feet without charge. This amount would total 1875.

There is some question as to Mohave's right to tariff charges labeled as service drops. In this proposal we will not address Mohave's service drop tariff. We will pay the \$400.00 service drop charge, plus \$3.50 per foot beyond the 80 feet without charge on to the consumer's property. The distance shall be measured from the property line closest to the pole that the wires will come off of and then to the consumers' service pole.

Rebecca Grady has experienced a number of different kinds of losses because of Mohave's action and failure to provide electrical service in a timely manner. Complainants are requesting that Mohave waive all required deposits and any other

requirements that Mohave claims to have, that might prevent the Grady's or any of the complainants their right to receive electricity.

I am looking forward to hearing from you regarding the settlement of this dispute.
May God grant you wisdom in making your decision.

Respectfully submitted,

A handwritten signature in cursive script that reads "Roger Chantel". The signature is written in black ink and includes a long, horizontal flourish extending to the right.

Roger Chantel
